दक्षता चारपक्षीय लक्ष्य आहे. म्हणूनच आपण आपल्या सर्व आवश्यकतांसाठी सर्वोत्कृष्ट वस्तुनिष्ठतेने आपल्या गरजा पूर्त करू शकता.

Marine-Ready (IP67)

- ✓ Completely Sealed: 100% dustproof and waterproof design.
- ✓ Submersible: Can be submerged in up to 1 meter of water for 30 minutes.
- ✓ Worry-Free: Built for the harshest marine, off-road, and RV environments.

Bluetooth Monitoring

- ✓ Real-Time Data: Instantly monitor battery status via the smartphone app.
- ✓ Key Stats: Track State of Charge (SoC), voltage, temperature, and overall health.

High-Performance BMS

- ✓ Heavy-Duty Protection: A robust, high-current Battery Management System protects against over-charging, short-circuits, and extreme temps.
- ✓ Active Balancing: Actively balances all cells to maximize battery life and ensure peak performance under heavy loads.

Heated for Cold Charging

- ✓ All-Season Performance: Eliminates cold-weather charging restrictions.
- ✓ Smart System: Automatically uses charger current to heat the battery for safe charging below freezing (32°F / 0°C).
- ✓ Extreme Capability: Can be discharged in temperatures down to -4°F / -20°C.

Key LiFePO4 Advantages

- ✓ Longer Lifespan: 4,000 - 6,000 cycle life.
- ✓ Lightweight: ~50% lighter than lead-acid equivalents.
- ✓ Fast Charging: Accepts charge current at a higher rate.
- ✓ Consistent Power: Stable voltage from start to finish.
- ✓ Warranty: 7-Year pro rated warranty
